Effective date of revocation will be the first full pay period after the anniversary date. After the first anniversary date, revocation may only be made in accordance with paragraph (c) above.

## **ARTICLE 6 - OFFICIAL TIME FOR LABOR ORGANIZATION REPRESENTATIVES**

### **6-1 OFFICIAL TIME**

Official time will be made available without loss of annual leave during normal duty hours for the labor organization representatives to carry on business that is of mutual interest to the employing agency and the labor organization. The employer agrees that representatives of the labor organization, if requested by the Local Wage Survey Committee, through the employer, will participate in accordance with 5 CFR 532. Time required to perform required duties will be in a duty status and civilian attire is authorized. The labor organization reserves the right to appoint the participants of the survey.

## **ARTICLE 8 - NEW EMPLOYEE COUNSELING PROCEDURES**

### **8-1 PROCEDURE**

The employer will establish procedures to assure that a new employee will be counseled on all aspects of technician employment within one (1) pay period after the effective date of employment. A copy of the Labor Management Agreement will be provided to the new employee.

### **8-2 CHECKLIST**

- a. A checklist will be used to cover all items that each new technician must be made aware of.
- b. After the employee has been counseled, the employee and the counselor will sign the checklist and a copy provided to the technician.

### **8-3 NOTIFICATION**

The labor organization will be notified in writing of all new employees within a reasonable amount of time after hiring.

## **ARTICLE 9 - HOURS OF WORK**

### **9-1 ADMINISTRATIVE WORK WEEK**

The administrative workweek is established as 0001 Sunday through 2400 Saturday with Sunday as the first day.

### **9-2 BASIC WORK WEEK**

The basic workweek is established as the first forty (40) hours worked during the administrative workweek.

The basic work tour will consist of eighty (80) hours per bi-weekly pay period.

### **9-4 STANDARD SCHEDULES**

- a. Standard work hours will be from 0800 to 1630. It is recognized however that it may be necessary to establish different hours depending on the mission, work areas or type of installation within the State. The employer will establish work center hours to meet mission requirements. Changes in work center hours may be approved via a request for coordination through the Human Resources Office/Labor Relations Officer to the Adjutant General.
- b. Each employee is authorized a thirty (30) minutes of duty free time for a lunch break each day. The lunch periods will normally be scheduled between 1030 and 1300. If a lunch period is not scheduled bargaining unit members will be allowed to use any thirty (30) minute period within this time frame, subject to mission requirements.
- c. It is understood that unscheduled events may disrupt this time, but this shall not be a continual (normal) practice. Shift workers normally will be allowed their thirty (30) minute lunch break midpoint in the shift.
- d. Management will make every effort to coordinate the workload to allow the uninterrupted lunch break. Employees scheduled to work through their normal scheduled lunch period will have the option to reschedule the lunch period or take a reasonable amount of time to consume a lunch within close proximity to their work station and be available for work assignments. If unforeseen circumstances or mission requirements prevent an employee from taking his scheduled lunch period the employee may either earn compensatory time for that lunch period or be released thirty (30) minutes prior to the end of the scheduled shift.

#### **9-5 ALTERNATE WORK SCHEDULES**

a. Alternate work schedules will be IAW policy established by the Adjutant General. Alternate work schedules may be implemented to meet mission requirements, achieve resource economies and improve work center effectiveness.

b. Parameters of alternative work schedules:

(1) Success or failure of alternate work schedules is dependent on a good employer/employee relationship and careful planning. The employee must recognize that this work schedule is a privilege that is accompanied by a degree of individual responsibility. It is not a right but a trust and the employee is expected to fulfill the commitment to account for a full days work. Supervisors will remove those employees that cannot comply with the Adjutant General's policy.

(2) The Adjutant General reserves the right to cancel alternative work schedules should he deem it necessary. Supervisors may deny or adjust alternative work schedules in compliance with the Adjutant General's policy.

c. Definition of Terms:

(1) Core Hours: Core hours is that portion of the day, excluding the approved off the clock lunch period, during which all employees must be present for work.

(2) Mission Requirements: Management has the authority to deny or adjust any or all tours in the event the assignment interferes with functions that must be accomplished to meet mission objectives.

(3) Lunch Periods: Lunch periods are periods of time not on duty. Lunch periods of thirty (30) minutes will be authorized for all employees normally at the mid-point of their scheduled shift (see 9-4 d above).

(4) Break Periods: Break periods of 15 minutes will normally be held midway into the employee's morning and afternoon work periods. Break periods will not be authorized if the work period is less than four (4) hours.

d. Employee problems regarding alternative work schedules will be resolved at the lowest level possible. Problems that cannot be resolved at the supervisor level will be forwarded through supervisory channels for resolution.

#### **9-6 SHIFT ASSIGNMENTS**

The employer agrees that qualified senior employees (based on service computation date) will have precedence in regards to shift assignments with consideration of Article 9-7.

#### **9-7 SPECIAL SHIFT ASSIGNMENTS**

The employer agrees that any employee who requests to work specific shift because of personal and/or family problems (i.e. to attend educational classes, single parents, sickness in the family) will be granted special consideration in shift assignments.

#### **9-8 SHIFT CHANGE NOTIFICATION**

Employees will be notified no less than two (2) weeks in advance of a shift change. Work schedules will be posted, in each work area, no less than two weeks in advance. Employees will be notified of unusual work schedules or duties no less than seven (7) days in advance. Shift differential, when authorized, for the original shift will be paid if the proper notice period is not provided. A situation which imposes immediate and unforeseen work requirements as a result of natural phenomena or mission related circumstances beyond the employer's reasonable control or ability to anticipate, or the Employer determines that the activity would be seriously handicapped in carrying out its functions or that costs would be substantially increased, the Employer is excluded from the seven (7) day notice requirement.

### **9-9 SHIFT REASSIGNMENT**

Management will not remove, without justification, an individual, who has routinely worked a shift (either afternoons, days, rotating, etc.) from that shift unless that shift is abolished, or the shift manning requirements change.

### **9-10 CLEAN-UP TIME**

The employer agrees to allow a reasonable amount of time immediately preceding the lunch period and at the end of each workday to permit employees engaged in work involving dirty, toxic, or hazardous substances, for personal clean-up.

### **9-11 STANDBY/BEEPERS**

No standby at home in a non-pay status will be required of any employee. Employees will not be required to carry or respond to "beepers" unless they are in a duty and pay status. Individuals in "stand-by" status are not in an "on-call" status.

### **9-12 BREAK TIME**

Based on criteria below, short rest periods may be granted each work day.

a. Protection of technician's health by relief from hazardous work or that requires continual and/or considerable physical exertion.

b. Working in confined spaces or in areas where normal personal activities are restricted.

c. Every employee shall be afforded the opportunity for a scheduled fifteen (15) minute break during each four-hour work period. Unforeseen circumstances may cause the break to be rescheduled. The scheduled rest period may not be a continuation of the lunch period and is provided for:

(1) Reduction of accident potential by elimination of fatigue.

(2) Increase in, or maintenance of, high quality and/or quantity production traceable to the rest period.

d. Rest period granted in accordance with these provisions are included in the daily tour of duty. Rest periods other than those provided herein may not be considered as part of the daily tour of duty; such periods must be charged to the appropriate type of leave.

### **9-13 PREMIUM PAY**

All shift, holiday and Sunday premium pay will be paid as authorized by law, regulation or CFR.

### **9-14 EXCUSED ABSENCES**

When extreme weather conditions cause widespread delay in reporting for work, the employer or senior area supervisor will determine if administrative leave will be granted and a amount of such leave to be extended as prescribed in regulations.

## **ARTICLE 10 - POSITION DESCRIPTION**

### **10-1 POSITION DESCRIPTION**

Position descriptions will be an accurate listing of the major duties that are required by the employer to be performed by the affected technician(s). When a new or revised Position Description (PD) is implemented, the labor organization and the affected technician(s) will receive a copy.

### **10-2 OTHER DUTIES AS ASSIGNED**

The term "other duties as assigned" as part of the position description is defined to mean, reasonably related duties to the job/position, and should be of the same level and classification that the individual is currently graded. This does not preclude management from assigning additional, though unrelated, duties. If unrelated duties are assigned on a routine basis, the PD must be amended to include such duties. Work assignments shall not be in violation of prohibited personnel practices nor any relevant law, rule, regulation or this agreement. If the additional duty requires the use of products and/or equipment that is not normally used by the technician then the employee will receive the required training and/or certification prior to using the products and/or equipment.

### **10-3 ADDITIONAL DUTIES**

It is acknowledged that there are vacancies that exist from time to time that are not or cannot be filled. These duties must be equitably distributed among the remaining work force within the area of concern on a fair and equitable basis. To the extent possible the employer agrees to fill all technician vacancies that may impact on bargaining unit members rather than use additional duties.

- a. The employer will exercise its efforts in good faith, subject to requirements of efficient operations, to avoid establishing additional duty requirements that would create unnecessary hardships, potential bodily injury, health hazards or discrimination against any employee or group of employees.
- b. Bargaining unit members will be compensated when assigned to perform supervisory duties as defined by TPM and 5 USC, 7103, (10). (See 11-4 below)
- c. Management officials must approve purchasing decisions and assume financial responsibility for products, parts, or services for the Government Purchase Card (GPC).

## **ARTICLE 11 - DETAILING OF TECHNICIANS**

### **11-1 DEFINITION**

- a. A detail is an official personnel action temporarily assigning a technician to a different established or pending position for a specified period of time, with the technician returning to the original position at the conclusion of the detail. Details are not to exceed 120 days.
- b. Details are intended to meet temporary emergency workload situations, absences of employees, pending authorization and classification of new positions or other types of operational manpower needs that cannot be met by normal personnel placement.

### **11-2 PROCEDURE**

Management realizes and acknowledges that details of technicians out of their specialty must be used in a judicious manner. Therefore the following procedures are established:

- a. Qualified volunteers for details will be sought and accepted before non-volunteers are assigned.
- b. When an inadequate number of qualified employees volunteer for a detail, the employer agrees to rotate the assignment among the qualified individuals in the area of concern.
- c. To the extent possible the employer agrees to fill all technician position vacancies that may impact on bargaining unit members rather than use details.
- d. It is recognized that there may be isolated instances when management cannot apply these procedures. In those instances and prior to the beginning of the detail, management agrees to explain the circumstances to the selected non-volunteers. If requested, management will provide the explanation in writing.

### **11-3 RECORDING OF DETAILS**

Official details will be recorded on SF Form 50 at the time the action occurs and maintained as a permanent record in the employee's Official Personnel File (OPF). The union will be given prior written notice of the start and end date of the detail.

### **11-4 TEMPORARY PROMOTION**

When the employer requires the duties of a higher-grade position, or one with known promotion potential within the bargaining unit, to be performed for greater than one (1) pay period, the assignment will become a temporary promotion, and the employee will be compensated at the higher rate of pay. A SF 52 will be submitted and approved no later than the first working day of the temporary promotion. If the temporary promotion is to last for a period of longer than ninety (90) days it will be filled competitively and the Merit Promotion Article procedures will be utilized.

### **11-5 CAREER ENHANCEMENT**

Management recognizes that assignments to higher-graded positions, duties, and/or training may ultimately lead to new or better job opportunities. Merit promotion procedures (See Article 17) will apply to all situations when management officials are to consider assigning an employee(s) to duties where the successful completion of the assignment would provide tangible benefits in the career track decisions and/or financial situation of the selected employee. Situations include but are not limited to:

- a. Appointment as permanent understudy.
- b. Detail of technicians for which no position (funding) is available but it can be anticipated that a full-time position will be forthcoming in the future.
- c. Special training opportunities that may lead to improved chances for full-time employment advancement.
- d. Participation in a government "intern" or "fellowship" program.

### **11-6 TECHNICIAN REASSIGNMENTS**

All avenues must be explored prior to technician reassignments. i.e. job announcements. There must be a valid reason for management directed reassignments. In addition to regulatory requirements (TPR 715) the labor organization will be afforded the right to bargain the impact and implementation of the reassignment.

### **11-7 MILITARY OPERATIONS ON NORMAL WORK DAYS**

If the employer determines that military status is not required, technicians may be afforded the opportunity to remain in technician status.

## **ARTICLE 12 - JOB PERFORMANCE STANDARDS AND PERFORMANCE RATING**

### **12-1 INTRODUCTION**

The employer and the labor organization recognize the vital nature of the performance evaluation process. The effectiveness of the performance evaluation system is a combined responsibility of each permanent employee and their supervisor.

### **12-2 APPRAISAL PERIOD**

- a. Technician Performance Appraisal will be done annually during the technician's birth month. Management will track the due dates of evaluations and post to the local area network (LAN). This information will be open for review by the labor organization.
- b. A minimum of 120 days supervision is required before an appraisal can be rendered.
- c. Technicians will receive an appraisal under their old job standard when transferring jobs, at the time of the transfer, provided a minimum of 120 days has elapsed since the previous appraisal.
- d. When a major change (a change in any critical element) to the job standard occurs within 120 days before the anniversary date, the technician appraisal will be based on the old standard.
- e. A close out performance appraisal will be rendered when there is a change in the immediate supervisor provided that there are a minimum of 120 days since the last appraisal.
- f. A six-month evaluation will be given in the middle of the technician's annual appraisal period no earlier than the 180<sup>th</sup> day and no later than the 210<sup>th</sup> day of the technician's performance appraisal period.

### **12-3 PERFORMANCE INDICATORS/CRITICAL JOB ELEMENTS**

- a. CNG TPM dated March 1, 2000, will be used as a guide in the development of performance indicators and identification of critical job elements.
- b. The supervisor with employee participation will establish performance indicators and critical job elements that are an accurate reflection of duties to be performed and then sign and date the performance indicators and critical job elements form, CNG Form 430.

c. When a supervisor and technician cannot agree on critical job elements and performance indicators the reviewer (that individual available within the supervisory chain of command) participating with the appraiser will attempt to resolve any disagreement.

d. The employee has the right to grieve at any time the content of a performance standard which:

(1) Fails to incorporate law, rule, or regulation.

(2) Does not correspond to the position description.

(3) Fails to accurately reflect the actual duties performed.

e. A complete copy of the performance standard will be provided to the technician at the beginning of the new appraisal period and whenever a revision occurs.

#### **12-4 THE APPRAISAL**

ANNEX D of the TPM, March 2000, establishes a "two tier" (meets standards/does not meet standards) Technician Performance Appraisal Report for California National Guard Technicians. Annex D, of The Technician Manual, dated March of 2000, will be the basis of the Technician Appraisal Program.

#### **12-5 APPRAISALS OF UNION OFFICIALS**

The time spent by union representatives in the performance of their representational duties will not be taken into account when accomplishing a performance appraisal. The performance appraisal will be based solely on performance of their officially assigned work.

#### **12-6 PERIODIC COUNSELING**

For the purpose of this agreement periodic counseling sessions will occur when a technician's immediate supervisor deems it necessary. Technicians will be periodically reminded of the critical job elements and expected performance standards of their positions, and will be informed when their performance is unacceptable in any element of the job. Technicians will be assisted in improving areas of unacceptable performance by counseling, increased supervisory assistance, or additional training. The counseling date and subject matter will be documented on the NGB 904-1. The entry will be in pencil and initialed by both the employee and the supervisor conducting the counseling. These frank and open counseling should also maintain good supervisor and employee relations.

### **ARTICLE 13 - TEMPORARY DUTY ASSIGNMENT**

#### **13-1 GENERAL**

A Temporary Duty Assignment (TDY) will be announced as soon as information on the assignment is available, and as far in advance of the deployment as possible. Selection of employees for temporary duty assignments will be based upon official necessity and qualifications of the individual to best perform the mission required without regard to sex, race, religion or national origin. So far as necessary in the full performance of their position duties, employees are responsible for responding to temporary duty assignments in the same manner as to duties at their permanent duty station. The employer agrees to insure that problems created by TDY assignments will have a minimal impact on any individual technician. Information on the assignment will be made known on a continuing basis to the affected technicians, as it becomes available.

#### **13-2 STEWARD**

a. The labor organization will be informed of the deployment requirements and kept updated. A steward may be appointed by the labor organization in accordance with Article 3, paragraph 3. For the period of the TDY, that steward will be the labor organization point of contact.

b. While TDY, the steward may be provided a secure, sole-use office area in the spirit of Article 4-1a of this agreement to satisfy the purposes of Article 6-2a. The Employer agrees to make every reasonable effort to provide this working space within the work area assigned to the unit at the TDY location. If adequate and suitable space in this regard is not available then the Employer agrees, when possible, that the steward will be billeted in a single occupancy room to achieve these ends. In the latter case the Labor Organization understands that the room assigned will function as the steward's lodging as well as a temporary union business office.

### **13-3 ASSIGNMENT OF QUALIFIED TECHNICIANS**

Management will determine what qualifications are required based on the mission requirements and safety concerns of a particular TDY assignment. Individuals selected for any TDY assignment are expected to possess all the qualifications required to perform the full range of duties required for the assignment. The Employer agrees that all unit members that possess the necessary qualifications for the assignment will be allowed to volunteer. The most qualified volunteers for a TDY will be sought and accepted before non-volunteers are assigned. When no qualified volunteers or an inadequate number of qualified volunteers are available management will make the selection(s) based on mission requirements, safety of personnel, and the protection of the public property.

### **13-4 STATUS**

If, preference of status is available, required leave status will be in accordance with law, rule or regulation and Article 16, of this agreement.

### **13-5 TDY ORDERS**

TDY orders will specify civilian wage/grade when traveling in technician status so that quarters and other travel requirements can be complied with in accordance with the Joint Travel Regulations Vol. II. When possible, TDY Orders will be prepared and delivered five (5) working days in advance of departure.

### **13-6 MODE OF TRANSPORTATION**

a. Employees will use the mode of transportation administratively authorized on travel orders as most advantages to the Government. Any additional cost or time resulting from use of a mode of transportation other than specifically authorized will be the employee's responsibility. Travel by privately owned conveyance may be authorized when employees are engaged on official business. Travel by privately owned conveyance will not be directed but may be authorized at the Employer's discretion. When an employee uses a privately owned conveyance as a matter of personal preference while traveling, reimbursement will be in accordance with applicable regulations and JTR. Compensatory time gained will not exceed that of which is granted to employee's traveling by government conveyance.

b. Any person traveling by a mode of transportation other than the authorized means shall be paid only for the constructive cost of the mode that would have been provided by the transportation office including constructive per diem for travel by that mode. When the actual Privately Owned Vehicle (POV) costs are less than the constructive costs reimbursement will be in the amount of the actual costs. All other time used will be in an authorized leave status. An employee with medical documentation shall not be required to travel by aircraft and may use other methods of transportation.

c. The number of vehicles provided by the employer to be used while TDY for basic transportation will be determined by providing one four passenger vehicle per four technicians. The use of multi-passenger vehicles (6 passenger vans, buses and SUV's) will be loaded in accordance with the vehicle manufacturer recommendations and applicable State and Federal Regulations.

### **13-7 TRAVEL VOUCHERS**

The employee will submit a travel voucher, DD Form 1351-2, to the Accounting and Finance Office in all cases when travel is completed. The voucher should be submitted within five (5) workdays after completion of travel. The filing of travel vouchers and time spent obtaining per diem/travel arrangements may be accomplished while on duty status. A trained individual will be available to advise/assist the technician with such vouchers during normal duty hours. Reimbursement of travel expenses will be received within thirty days of submission of the voucher.

### **13-8 TRAVEL ADVANCES**

If authorized and requested advance per diem will normally be determined and paid a maximum of three (3) days in advance of the departure date. Those technicians authorized to carry the government charge card will not normally be entitled to advance per diem. ATM features will be used to provide these employee's with the necessary per diem. Per Diem for travel or temporary duty as a technician shall be paid at the maximum rate in accordance with the Joint Travel Regulations, Volume II.

### **13-9 WORK SCHEDULES**

A proposed work schedule and schedule of events for the TDY will be posted a minimum of one pay-period in advance when the information is available. Employee work schedules will reflect known work requirements of the TDY. While TDY, assignment of work will be distributed equally regardless of status (technician/military).

### **13-10 WORKING CONDITIONS**

The employer agrees that every reasonable effort will be made to insure that adequate numbers of technicians will support each TDY to insure the health, safety, welfare, and morale of each technician.

### **13-11 COMPENSATORY TIME**

a. Time spent traveling (but not other time in travel status) away from the permanent duty station is "hours worked" when it cuts across the employee's workday. The time is not only "hours worked" on regular workdays during normal working hours but also during the corresponding hours on non-workdays. For example, if any employee regularly works from 0800 to 1630 from Monday through Friday, the time spent traveling during these hours is "hours worked" and the time spent traveling during corresponding hours on non-workdays (Saturday, Sunday and holidays) is also "hours worked" and the employee will receive compensatory time for these periods. Travel performed prior to 0800 and after 1630 would not be considered as "hours worked". Compensatory time will be granted for time spent in a travel status, which is outside of scheduled duty hours on the scheduled workday.

b. When management is unable to schedule or control the administration of work or assignment, any technician required to work, "standby", or travel on other than normal duty hours will be paid or receive hour for hour compensatory time.

c. When practical, travel will normally be arranged within the employees scheduled hours of work.

### **13-12 HOME STATION WORKLOAD**

The employer acknowledges that a TDY may create additional workloads for technicians who remain at home station. Every effort will be made to keep workloads and special details to a minimum.

### **13-13 PRUDENCE IN TRAVEL/ORDERS**

An employee on TDY will exercise the same care in incurring expenses and accomplishing a mission that a prudent person would exercise if traveling on personal business. Excess costs, circuitous routes, delays or luxury accommodations unnecessary or unjustified in the performance of a mission are not considered acceptable as exercising prudence. Employees will be responsible for excess costs and any additional expenses incurred for personal preference or convenience.

### **13-14 QUARTERS WHILE TDY**

Accommodations for the technicians on technician status on TDY will be based on the installations published standards for civilian government employees. If suitable quarters are not available the installation billeting office is responsible to provide a certificate of non-availability. Where adequate government quarters are not available, the employer is responsible to provide transportation between the duty station and the quarters when required for the accomplishment of the mission.

## **ARTICLE 14 - HAZARDOUS DUTY AND ENVIRONMENTAL DIFFERENTIAL PAY**

### **14-1 PURPOSE**

The purpose of this article is to define the situations under which Hazardous Duty (HDP) and Environmental Differential Pay (EDP) will be paid to employees. Specific procedures and guidelines are established in 5 CFR Part 532.511 and 550.905. These procedures will be followed in establishing and paying of EDP/HDP.

### **14-2 COVERAGE**

In concert with California Technician Personnel Manual, Annex F and this article all California Air National Guard Technicians employed on a full-time, part-time, indefinite, temporary or intermittent basis may be entitled to HDP/EDP.

a. HDP applies only to General Schedule employees.

b. EDP applies only to Wage Grade employees.

c. HDP applies only to General Schedule (GS) technicians while in pay status. Compensatory time worked is not a paid status for this purpose. HDP will be paid only for duties that qualify in accordance with a list of situations published by the Office of Personnel Management (OPM). It has been determined by the National Guard Bureau that there are no situations for which a GS technician would be entitled to HDP at the present time. However, if it is determined that a GS employee performs hazardous duties the employee will be paid the differential pay.

#### **14-3 POLICY**

HDP and EDP are additional compensation programs available to employees for actual exposure to various degrees of hazards, physical hardships, and working conditions of an unusually severe nature. Authorization for these differentials does not eliminate the continuing responsibility of all concerned to initiate positive actions to eliminate or reduce danger and risk which contribute to or cause the hazard, physical hardship or working condition.

- a. The existence of HDP and EDP differential is not intended to condone work practices, which may circumvent federal safety laws, rules or regulations. However, when the Employer is unable to "practically eliminate" the unusually severe nature of the hazard, physical hardships, or working conditions an environmental differential may be authorized.
- b. When potential hazard or actual discomforts are identified in a work assignment, first consideration will be given to the protection of the employee. Protective measures, which reduce the hazard to the employee and relieve his discomfort, will be made available and the application of these measures enforced. The payment of HDP and EDP is a measure, which admits that no available means can reasonably be employed to adequately or where appropriate, practically eliminate the hazard or discomfort the reasonably tolerable levels.

#### **14-4 LABOR-MANAGEMENT EDP/HDP COMMITTEE**

- a. The parties agree to develop a joint committee to establish, administer, and review the EDP/HDP program for the 144<sup>th</sup> FW.
- b. Upon implementation of this agreement the parties will meet to establish the procedures that the Committee will follow in addressing EDP/HDP. The committee will establish procedures that apply to EDP/HDP situations that are currently in place, new situations that may require reassessment and problems faced by the work force in processing EDP/HDP requests and claims. Decisions regarding HDP situations will be coordinated with HRO.
- c. Through the term of this agreement the Committee will meet as necessary to administer any aspect of the EDP/HDP program.
- d. The Committee shall conduct annual evaluations of the program and the approved situations to insure that they are current and valid. New qualifying situations that arise will be handled on a case-by-case basis.
- e. Upon receipt of HDP/EDP situation requests, the Committee shall meet within fifteen (15) work days for the purpose of evaluating the request. For requests not addressed by this article or the CFR, equal representatives of the Employer and from the Labor Organization shall evaluate the situation and determine if the situation meets the requirements of the CFR for approval. When a situation is approved, it will be distributed to the work force.
- f. Nothing shall preclude negotiations through the collective bargaining process to: determine coverage of additional local situations under the appropriate application of Appendix A of the CFR. To determine if a local work situation is covered under an approved category, even though the work situations may not be described under a specific illustrative example), or to determine additional categories that are suitable for referral to OPM for a new environmental differential category or a different percentage differential for an existing category.

#### **14-5 RESPONSIBILITIES**

- a. Technicians: Each employee is required to work within the dictates of sound safety and occupational health practices and procedures, which are under his control. In those instances where the application of these practices and procedures cannot eliminate a hazardous situation, the employee must take positive steps to report the situation, and if appropriate, initiate a request to establish an HDP/EDP situation. Recommendations will be forwarded to the EDP/HDP Committee.
- b. Supervisors: All supervisors and managers will insure that safety practices and acceptable work procedures are followed. In those instances where the application of these practices and procedures cannot be avoided or "practically eliminated", a request to establish an EDP situation must be prepared. The supervisor will examine the situation and provide his/her recommendation. Supervisors and managers do not have the authority to approve or disapprove a request to establish an HDP/EDP situation. That situation will be forwarded to the EDP/HDP Committee for resolution.

c. Human Resource Office: The HRO is responsible for the management of the HDP/EDP programs. The HRO shall review and disseminate all appropriate guidance from the Office of Personnel Management (OPM) and the National Guard Bureau as may relate to this article.

#### **14-6 HAZARDOUS DUTY PAY (HDP)**

This section provides details necessary to implement the HDP authorization in the California Air National Guard, as authorized by Title 5, United States Code and Federal and State OSHA regulations.

a. Coverage: This article establishes a schedule of pay differentials for irregular or intermittent duty involving unusual physical hardship or hazard. The law applies to GS employees serving in a full-time, part-time or intermittent position. In order for an individual to be eligible for HDP, he/she must be performing hazardous duties or duties involving physical hardship. The situations authorized for HDP are contained in Appendix A of 5 CFR, part 550.905.

b. Definitions:

(1) Hazard pay differential: means additional pay for performance of hazardous duty or duty involving physical hardship.

(2) Hazardous duty means duty performed under circumstances in which a accident could result in a serious injury or death, such as duty performed on a high structure where protective facilities are not used or on an open structure where adverse conditions such as darkness, lighting, steady rain, or high wind velocity exist.

(3) Duty involving physical hardship means duty that may not in itself be hazardous, but causes extreme physical discomfort or distress and is not adequately alleviated by protective or mechanical devices, such as:

(A) Duty involving exposure to extreme temperatures for a long period of time.

(B) Duty involving arduous physical exertion, or exposure to fumes, dusts, or noise that causes nausea, skin, eye, ear or nose irritation.

c. Authorization to pay HDP: HDP may only be paid to employees who are assigned hazardous duty or duty involving physical hardship. The supporting pay branch is authorized to pay HDP when:

(1) There is an approved HDP situation.

(2) The appropriate supervisor has processed the required documentation to civilian pay.

d. Payment of HDP:

(1) Hazardous pay differentials may not exceed an amount equal to 25 percent of the rate of base pay applicable to the employee. Hazard pay is in addition to any additional pay or allowances to which the employee is entitled. It shall not, however, be used to compute any additional pay or allowances payable under another statute or law. If a technician is being paid at a retained rate, that rate is his rate of base pay for the purposes of computing HDP.

(2) When an employee performs duty for which hazard pay is authorized, they will be entitled to hazard differential pay for the hours in a pay status on the day in which the duty was performed. Hours in a pay status for work performed during a continuous period extending over two days shall be considered to have been performed on the day on which the work began and allowable hazardous pay shall be charged to that day.

(3) Payment of hazardous pay is authorized for employees only while they are in a pay status.

(4) Payment of the HDP shall be made to the employee not later than the second pay period after the actual exposure takes place.

**e. Termination of HDP:**

**(1)** The Employer shall discontinue payment of HDP to an employee when:

**(A)** One or more of the conditions requisite for such payment ceases to exist.

**(B)** Safety precautions have reduced the hazard to a less than significant level of risk, consistent with generally accepted standards that may be applicable, such as those published by the Occupational Safety and Health Administration (OSHA), Department of Labor (DOL); or

**(C)** Protective or mechanical devices have adequately alleviated physical discomfort or stress.

**14-7 ENVIRONMENTAL DIFFERENTIAL PAY (EDP)**

This section provides the details necessary to implement an Environmental Differential Pay program for Wage Board employees as authorized by 5 CFR, Chapter 1, Section 532.511.

**a. Basis for EDP:** Environmental Differentials are paid for those work situations in which the employee is exposed to a potentially severe hazard which has a real probability of occurrence and for which no adequate precautions or protective facilities are possible to "minimize or practically eliminate" physical injury, illness or death to the employee should the potential of the situation actualize. The hazard must involve a real threat with no effective measures available to adequately alleviate the employee from attendant discomforts or threat of injury. If no effective measures are available to protect the employee from the effects of the work environment, appropriate compensation through EDP must be provided.

**b. Payment for EDP situations:**

**(1)** An environmental differential is paid to a wage grade employee who is exposed to a hazard, physical hardship, or working condition of an unusually severe nature. A schedule of environmental differentials is contained in Appendix A, 5 CFR, part 532, subpart E.

**(2)** An employee who is subjected at the same time to more than one hazard, shall be paid for that exposure which results in the highest differential, and shall not be paid for more than one differential for the same hours worked.

**(3)** Environmental differential pay is authorized only when employees are in a pay status. Overtime, which is worked for compensatory time off, is not considered as a pay status for the purpose of receiving EDP.

**(4)** Payment of EDP shall be made to the employee as soon as possible after the actual exposure takes place.

**c. Establishment of EDP:**

**(1)** Changes to categories indicated in the approved situations will be effected as changes occur in the CFR. Recommendations for changes to the approved situations will be processed IAW section 14-4. Any submission under this section must include,

**(A)** The nature of the exposure so as to clearly show the hazard, physical hardship or working condition for which compensation is being requested.

**(B)** The degree to which the employee is exposed to the hazard and the period of time during which the exposure is expected to exist.

**(2)** The degree to which control may be exercised over the physical hardship, hazard, or working condition of an unusually severe nature. The request shall also include the rate of environmental differential recommendation to be established.

**(3)** Recommendations to establish new situations or to change existing situations must address the conditions indicated above and must be submitted using the appropriate form.

**d. When EDP is paid:**

(1) An employee entitled to environmental differential pay shall be paid an amount equal to the percentage rate authorized by OPM for the category in which the hazard or working condition falls, multiplied by the rate for the second step of a WG-10 on the current regular non-supervisory wage schedule for the wage area for which the differential is payable, counting one-half cent and over as a whole cent.

(2) When an employee is entitled to EDP, which is paid on an actual exposure basis, they shall be paid a minimum of one (1) hour differential pay for the exposure. For exposure beyond one (1) hour, the employee shall be paid in increments of one-quarter (1/4) hour for each fifteen (15) minutes or portion thereof in excess of fifteen minutes; e.g., if an employee is exposed for one (1) hour and six (6) minutes, they will receive EDP for one (1) hour and fifteen (15) minutes.

(3) An employee entitled to an EDP on the basis of hours in a pay status shall be paid for all hours in a pay status on the day on which they were exposed to the situation.

(4) An employee may not be paid more than one environmental differential for a particular period of work.

(5) The payment of EDP is computed on the basis of the highest environmental differential rate authorized during the period of entitlement.

(6) The number of hours an employee is paid EDP shall not exceed the number of hours of duty performed by the employee on the day of exposure except as required by paragraph (b) (3) of this section.

**14-8 DOCUMENTATION FOR EDP/HDP EXPOSURE**

a. The payroll office receives the documentation of EDP by using an NGB Form 104 which is attached to the T&A card as required by DCPS pay center. This is required to provide the necessary information for calculating EDP entitlements. The form will be completed as follows:

(1) Enter name, SSN, unit, and location of the employee concerned.

(2) List the category number of exposure. Show all exposures as they occur each workday. When exposure occurs under more than one category, intermittently for the same category, or concurrently with more than one category on the same workday, list each individual exposure separately to include actual clock times.

b. Duration of exposure: List the date, inclusive clock time in the "from" and "to" columns, and actual elapsed time in hours and minutes of each category of exposure shown in the preceding column: (e.g., 1 January 1998; 1300-1525 hours; 2 hours and 25 minutes).

c. The appropriate supervisor authorized to certify the time and attendance card will certify the exposure for pay purposes in approved situations.

d. A summary of EDP hours will be completed by the supporting payroll office.

**14-9 EDP REQUESTS**

All requests will be handled in an expedient manner.

**14-10 EDP/HDP IN EFFECT**

All differentials presently paid will remain in effect for the duration of this agreement, or until it is agreed by the parties that the hazard has been "practically eliminated".

**ARTICLE 15 - HEALTH, SAFETY, AND WELFARE**

**15-1 GENERAL**

The employer and the labor organization will exert every reasonable effort to provide and maintain a work environment conducive to the safety and well being of employees. Rules, laws and regulations related to safety shall be available to all employees and departments and will be adhered to. It is acknowledged that certain tasks necessarily performed involve a varying degree of hazard. The types of employees normally assigned to perform hazardous tasks will be those who have received appropriate briefings, instructions,

training, or schooling pertinent to the hazardous task to be performed. The employer will provide appropriate safety and health training and certification for employees. The method and means of performing hazardous tasks will be those that incorporate all immediately available safety precautions and devices.

#### **15-2 WING SAFETY MEETING**

- a. The Wing Safety Committee has been established to provide a forum for discussion of OSH problems and to make recommendations to the Commander on OSH related matters.
- b. The Committee will meet at least quarterly to discuss OSH problems and to resolve Hazard Reports, AF Form 457, that are not resolved at a lower level.
- c. The Labor Organization will be notified of the Committee agenda items.
- d. Labor Organization Representatives will be present during discussions of employee orientated or Labor Organization submitted Hazard Reports.

#### **15-3 WORKMAN COMPENSATION**

Employees shall immediately report job connected injuries or illness to their supervisor. The supervisor will insure proper procedures are followed and that all the necessary documents are complete. When the employee is incapacitated and unable to notify the supervisor of injury or illness, it will be management's responsibility to initiate required procedures as soon as they are aware an incident has occurred. Local processing of workman compensation claims will be coordinated with the HRO. In all situations involving federal workman compensation, the HRO is available to assist the employee and if necessary ensure all required procedures are accomplished. In the event of a workman compensation claim, HRO will advise the employee as to their entitlements and obligations in accordance with Technician Personnel Regulation (TPR) 800.810, the Federal Employees' Compensation ACT (FECA) and TAAI 03-05 dated 11 February 2003.

#### **15-4 EXTREME COLD**

The employer and the labor organization mutually recognize the hazards of working in extremely cold temperatures, while at the same time, acknowledge the necessity for accomplishing certain tasks to varying extent even in the most extreme temperatures. It is acknowledged that it is the responsibility of each employee to insure the adequacy of cold weather gear worn and to make full and proper use of all such protective equipment prior to venturing out into extreme temperatures. The employer at no cost to the employees will furnish authorized foul/cold weather protective gear.

#### **15-5 EXTREME HEAT**

The employer and the labor organization mutually recognize the hazards of working in extremely hot temperatures, while at the same time acknowledge the necessity for accomplishing certain tasks to varying degree even in the most extreme temperatures.

- a. Management acknowledges that there are certain heat factors beyond which employees are incapable of performing sustained work.
- b. The wet bulb method of determining exposure to extreme heat will be used by the employer in accordance with 144FWI 48-4, 22 June 2001. Additionally, the wet bulb test will be taken on the aircraft-parking ramp at a site representing the most extreme heat stress area.
- c. It is realized that tolerance between individuals differ and that type of outside work being accomplished affects the body heat generated by a worker, therefore, common sense must be applied when considering maximum exposure time.

**HEAT STRESS CONDITIONS AND WORK/REST CYCLES**

**15-6 TDY SAFETY**

When technicians are sent to repair an aircraft or other equipment out of commission at other than home station, full consideration will be given by the employer to the method, the means, and the appropriate number of personnel by which such repair should be accomplished, to insure both expeditious job accomplishment and safety of personnel.

**15-7 SAFETY GLASSES AND PROTECTIVE CLOTHING**

a. The employer will furnish at no cost to the technicians, safety eyeglasses to include prescription lenses to technicians who are required by medical prescription to wear glasses, upon furnishing a request and justification and upon approval of the base safety officer. The technician will furnish a current eyeglass prescription or a new prescription as vision changes occur. All issued safety glasses broken on the job will be replaced at no cost to the technician. The individual may select either plain or tinted lenses.

b. All protective clothing and equipment authorized by applicable regulations and TA's will be provided by the employer at no cost to the technician.

**15-8 HAZARDOUS MATERIAL COMMUNICATION TRAINING**

a. Hazardous material information and training will be made available through Federal Hazard Communication Training Program IAW current law, rule or regulation.

b. In addition, all personnel will receive shop-specific Hazard Communication training detailing the hazards associated with chemicals used in their respective shops. Employees who handle, use, or are potentially exposed to hazardous materials in the course of official duties, will receive training on the specific hazards in their work area. This training should be conducted upon initial work area assignment and whenever a new hazard is identified or introduced into a work area. This initial training should occur before employees are exposed to hazardous materials.

c. All training will be properly documented to insure completion of required training.

d. Material Safety Data Sheets (MSDS) will be available to all supervisors, all employees exposed to any chemical hazard, and the employee representative. The MSDS will be on file in a known location and accessible to all the above individuals.

**15-9 SAFETY SURVEY**

A Labor Organization representative shall be given, on official time, the right to be present during any safety survey, conducted by any agency or persons contracted by the Employer to conduct the surveys. (i.e. wet bulb measurements)

**15-10 HAZARD REPORTING**

a. A hazard may be reported by any person and may be submitted on any event or condition that affects safety.

b. Reportable hazards include, but are not limited to, unsafe procedures, practices, or conditions in the following areas:

(1) Ground operation and maintenance of aircraft.

(2) Ground operation and maintenance of vehicles.

(3) Operation and maintenance of facilities.

(4) Training and education programs.

(5) Work environment.

c. Hazards will be reported to responsible supervisors so action can be taken. Oral reports for imminent danger situations are mandatory. In such situations the Safety Office will be immediately notified. If the hazard is eliminated on the spot, no further action is required. If the hazard is not or cannot be corrected within the work center, an appropriate Hazard Report will be prepared and given to the section supervisor. Hazard Reports may be submitted anonymously, directly to the Safety Office.

d. The Safety Office will review and evaluate the report IAW all applicable directives.

e. If after review and processing of the report by the Safety Office, the originator is not satisfied; s/he file a grievance IAW with Article 19 of this agreement.

**NOTE:** Applicable Safety Regulations are on file in the Base Safety Office and are available to all employees.

f. The term "imminent danger" means a condition or practice in any work place which could reasonably be expected to cause death or serious physical harm (a risk of injury of any sort is not sufficient) immediately or before there is sufficient time for such danger to be eliminated through normal procedures.

(1) In the case of imminent danger situations, employees shall make reports by the most expeditious means available.

(2) The employee has the right to decline to perform assigned tasks because of a reasonable belief that, under the circumstances, the tasks pose an imminent risk of death or serious bodily harm, coupled with a reasonable belief that there is insufficient time to effectively seek corrective action through hazard reporting and abatement procedures. In these instances, the employee must report the situation to his supervisor or the next immediately available higher-level supervisor.

(3) If the supervisor believes the condition or corrected condition does pose an immediate danger, then management shall request an inspection by the Safety Office as well as contact the Labor Organization, who shall be afforded the opportunity to be present at the time the inspection is made.

(4) Should the Safety Office decide the condition does not pose an immediate danger or if the supervisor gives the instruction to return to work, with or without attempted corrective action, the employee must choose between:

(a) Setting aside his or her concerns and perform the work or;

(b) Refuse the order and risk disciplinary action, for example, insubordination.

(5) Continued refusal by the employee at this point would be justified if it can be shown that there was a reasonable basis for the employee to believe that imminent danger was present.

#### **15-11 PHYSICAL FITNESS**

a. **Civilian** Technicians are authorized three (3) hours per week of duty time to participate in the physical fitness program in accordance with the established policy of the employer. If an employee is in a weight control program then management will do whatever is practical to insure the employee can actively participate in the three (3) hours a week physical fitness program.

b. **Employee's** that smoke and chew tobacco products should be counseled on the dangers of tobacco usage to themselves, their co-workers, and their families. Frequent smoke breaks should be discouraged and taken only as a break as established by Article 9, section 12 of this contract. Voluntary participation in

smoking secession programs should be encouraged. Designated smoking areas must be away from eating area's, entrances and exits from buildings, and smoking areas must conform to the local smoking regulations.

The provisions of this regulation are subject to this negotiated agreement.

### **16-2 ANNUAL LEAVE**

a. Annual leave will be administered on a uniform and equitable basis within the scope of applicable regulations.

b. Each employee will be allowed to schedule/use annual leave in the amount that will normally accrue during the current leave year. The employer will make every reasonable effort to honor the leave requests for the employees. The only basis for refusal of annual leave is mission accomplishment. In situations where there are more employees requesting leave for a particular period than can be approved due to mission requirements, the technician(s) with the greatest amount of seniority (SCD) will be given preference.

c. Unscheduled annual leave. The employee will contact the supervisor before the start of the shift. The employer agrees to grant the request for unscheduled annual leave if possible with regard to mission accomplishment. In situations where the employee finds it impossible to contact the supervisor a two-hour grace period is in effect whereby no disciplinary action may be considered unless circumstances warrant. Notification that does not meet the two-hour criteria will be dealt with on a case-by-case basis. The supervisor may request documentation to substantiate an emergency.

d. Annual leave may be charged to an employee's account in as small as one-quarter hour ( 15 min) increments.

e. A maximum of 240 hours of accumulated leave may be carried forward to the new leave year without forfeiture. Individual requests for carry over of annual leave in excess of 240 hours will be accomplished in accordance with CNG TPM Chapter 6. Supervisory recommendations to do so must be in writing and forwarded to the HRO 30 days prior to the end of the current leave year.

When need arises, this program will be implemented in accordance with applicable regulations current at the time the need exists. Changes to implementing instructions will be impact bargained.

### **16-4 SICK LEAVE**

a. Sick leave will be authorized only in bona fide cases and may be granted orally. It is the responsibility of the supervisor to ascertain whether absences are properly chargeable to sick leave. Medical certificates may be required under the following conditions:

(1) For absence in excess of three (3) workdays.

(2) For absences for short periods at frequent intervals whenever there is reason to believe that the sick leave privilege is being abused. In such cases, the technician will be advised in writing after counseling that a medical certificate will be required to support any future grants of sick leave regardless of duration.

b. Sick leave is authorized upon request for all dental, optical, and doctor appointments including reasonable travel time as necessary for both local and non-local appointments.

Compensatory time will be given to technicians on an hour for hour basis, for the amount of time spent by them in overtime work in excess of their scheduled tour of duty, in accordance with applicable regulations. In the event a technician is called back, a minimum of two hours will be considered standard.

b. Employees will be selected for overtime work on a fair and equitable basis consistent with job and skill requirements. Factors which will be considered include: the nature of the work, the need for special skills, the priority of productive or support effort, and the numbers of employees required.

c. Compensatory time may be used for performance of inactive or active duty training instead of annual leave or leave without pay.

d. Technicians retiring or resigning must use accrued compensatory time prior to termination. Lump sum payment for unused compensatory time is not authorized.

e. Compensatory time will be administered between the supervisor and the individual concerned. Such time will be administered in the same manner as annual leave. Compensatory time should be taken within twenty-six (26) pay periods from the pay period in which it was earned. At the end of the twenty-six pay period from the in which is earned the compensatory time will be forfeited. It is the technician's responsibility to request use of the compensatory time to avoid its loss. Supervisors will grant compensatory time, which will be lost if not used subject to mission requirements.

#### **16-6 PARENTAL LEAVE**

Parental leave is authorized in accordance with 5 CFR Part 630, The Family and Medical Leave ACT (FMLA of 1993 and The Family Friendly Leave ACT of 1994). The FMLA provides entitlement to 12 workweeks of unpaid leave during any 12-month period. The employer acknowledges that the employee and his/her doctor shall determine the basis for a reasonable length of maternity leave. This absence period may include a pre-delivery period, delivery, and post-natal recovery period, bonding time or an illness of a dependent. The use of annual or sick leave will not be charged against the 12-week period.

#### **16-7 TRAUMATIC LEAVE**

In accordance with FECA, Civilian Technicians are entitled to a continuation of pay status (COP) for a period not to exceed forty-five (45) days for any covered incapacitating injury or recovery period required by a doctor. NOTE: Early filing of a workman compensation claim form (CA-1 for an injury, CA-2 for illness/disease), is essential to assure full coverage for any job related injury or illness.

#### **16-8 LEAVE WITHOUT PAY (LWOP)**

LWOP is an approved absence without pay upon the employee's request. The employer agrees to consider LWOP for situations that are beneficial to the organization upon the request of the employee. Situations include but are not limited to the following:

a. Job related training/education, which would be of benefit to the agency.

b. Recovery from illness and/or disability.

c. Personal/family emergencies.

d. The Employer agrees to consider leaves of absence of any employee elected or appointed to a position of national officer or representative of the Union for the purpose of serving full-time in the position. Leaves of absence granted under this article will be for a period concurrent with the term of office or appointment of the official. The request will be granted absent a demonstration of adverse impact on the agency's mission

#### **16-9 LEAVE FOR BLOOD DONATION**

The employer and the Labor Organization recognize the importance and humanitarian need for community blood donors. When community's need for blood donors arise and work requirements allow for employer to release the employee(s), will be in an excused absence. Depending on the community needs and consistent with safe medical practices, excused absences normally should not exceed two (2) hours.

#### **16-10 MILITARY LEAVE**

Military leave is a special form of administrative leave granted to government employees for the purpose of performing military duty/training on an annual basis. The employer agrees that no employee may be required to use military leave, prior to use of other appropriate leave. Technicians are provided the option of using other available leave first or co-mingling types of leave. There is no charge of military leave on any holiday or weekends. It is recognized that the employee may carry-over up to one hundred and twenty (120) hours of unused military leave from one fiscal year to the next.

#### **17-12 ESTABLISHMENT OF KSA FACTORS**

#### **17-13 PROCESSING APPLICATIONS**

- a. The Human Resource Office will ascertain that only applications that are postmarked on or before the closing date will be considered, and will retain the postmarked envelopes for two (2) years after the appointment is made for any given position. The HRO will evaluate the application to determine that the applicant meets the basic qualifications of the advertised position. KSA's are used in the rating and ranking process - not to determine basic eligibility.
- b. If there are more than three (3) qualified applicants a rating panel will be established at the local level to rank best qualified and submit to selecting supervisor for selection. If there are three (3) or less applicants, the HRO will provide the selecting official with the applications and selection certificate.

#### **17-14 RATING PANEL**

Rating panels shall be established at the local level for the purpose of rating and ranking candidates for the position to be filled.

- a. The rating panel will consist of not less than three (3) members. When possible, One (1) member will be selected from the technical area of the promotion concerned. - c. When required by section 17-13b, a rating panel will be convened as a body at a time and place, as designated by the selecting supervisor, for the purpose of rating and ranking candidates for the advertised vacancy. #### **17-15 EVALUATING AND RANKING APPLICANTS**

##### **- Dual Status Positions -**

This section applies to the evaluation and ranking of applicants for positions in the Fresno Air National Guard Excepted service. Nothing in this article prohibits the selecting official from receiving or considering other information from candidates for selection. Management may use other means of ranking candidates provided that the means are identified on the vacancy announcement.

a. If a panel is required, reference section 17-13b, all Group 1 (one) candidate applications meeting basic eligibility for promotion or internal placement from within the first area of consideration will be presented for evaluation by the rating panel.

b. A point system will be utilized to establish the grouping of candidates. Items to receive ratings are as follows:

**(1) KSA Ratings (All Factors):**

**(A)** "A" level experience. Candidate possesses type and quality of experience that substantially exceeds the basic requirements of the position, including selective placement factors, and that would allow the candidate to perform effectively in the position almost immediately or with a minimum of training and/or orientation.

**(B)** "B" level experience. Candidate possesses type and quality of experience that exceeds the basic requirement of the position, including selective placement factors, and that would allow the candidate to perform effectively in the position within a reasonable period of time (i.e., three to six months).

**(C)** "C" level experience. Candidate satisfies the basic requirement of the position with respect to experience, including selective placement factors. However, type and quality of experience beyond that which is basically required are minimal, and/or extensive additional training/orientation may be required to enable the candidate to satisfactorily perform the duties of the position.

**NOTE:** The point value assigned for A, B, or C level experience will be based on the following knowledge, skills and abilities (KSA) table. The point values vary depending on the number of KSA factors used for the rating. KSA factors will be the same for all applicants evaluated.

**- Knowledge, Skills and Abilities (KSA) Table -**

3 KSA Factors	4 KSA Factors	5 KSA Factors	6 KSA Factors	7 KSA Factors	8 KSA Factors
A) 33.3	25.0	20.0	16.6	14.2	12.5
B) 28.3	21.2	17.0	14.1	12.1	10.6
C) 23.3	17.5	14.0	11.6	10.0	8.7

**EXAMPLE:** Using five KSA factors, a candidate's combined category rating of AABBC [20, 20, 17, 17, 14] converts to 88. Also if a candidate were found to rate a 'C' in all KSA categories the rating would be 70. If the rating were 'A' in all categories the total would be 100.

**(2) Awards:** Credit is awarded for pertinent honorary and monetary awards and fully acceptable performance ratings received in the previous three (3) years. Each applicant is responsible to supply awards documentation. A maximum of seven (7) points may be credited for this factor. Points are assigned as follows:

	1 <sup>st</sup> Year	2nd Year	3rd Year
Performance Award	1	1	1
Fully Successful	1	1	1
Suggestion Award	1	0	0

**(3) Training and Education:** A maximum of two (2) points will be awarded for this factor. This refers to training and education, other than that credited for basic eligibility that was not considered elsewhere in the evaluation process, which is relevant to the position being filled.

**OVERALL RATING:** The overall rating for each category (KSA, awards, performance potential, and education) will be combined and the total score for all categories will be recorded on the rating worksheet, technician seniority will be the tiebreaker.

**- Non Dual-Status Positions -**

This section applies to the evaluation and ranking of applicants for positions in the Fresno Air National Guard competitive service. Nothing in this article prohibits the selecting official from receiving or considering other information from candidates for selection. Management may use other means of ranking candidates provided that the means are identified on the vacancy announcement.

- a. All candidates' applications meeting basic eligibility for placement from within the area of consideration will be presented for evaluation by the rating panel.
- b. The rating panel shall establish, evaluate and rank candidates according to standards that comply with 5 CFR, section 300, 101-300, and any changes thereto (OPM X-118).

#### **17-16 REFERRAL OF CANDIDATES**

Following the evaluation of candidates, the rating panel will refer the selection certificate containing the rated candidates to the selecting official. Candidates will be listed in order of ranking on the rating worksheet. Applications and supporting documents submitted by candidates will also be forwarded to the selecting official for each promotion certificate submitted.

#### **17-17 ACTIONS BY THE SELECTING OFFICIAL**

The Selecting official has the right to select or not select any of the candidates referred to them. This action is included within the thirty- (30) day period reserved for the selection process. (See Section 17-11) The selecting official will proceed as follows:

- a. Provide for a fair and impartial one on one interview of each eligible candidate listed on the referral and selection certificate who is available for interview. If personal interviews are not possible telephone interviews will be conducted. This provides another means of evaluating and comparing and gives eligible candidates a chance to discuss the position and their qualifications.

**NOTE:** If the selecting official chooses to omit the interview process due to evidence of a clearly well qualified applicant he may select from the rating and ranking results.

- b. After interviewing the candidates, make the selection, or provide written definitive reasonable justification to the HRO for non-selection for each candidate on the promotion certificate.

(1) For the purpose of this section, "definitive" means a reason for non-selection, which provides a non-selected Group 1 candidate with the information as to an area, or areas where the applicant needs to improve.

(2) After interviewing, should the selecting official conclude that none of the Group 1 candidates are to be selected, he will complete the requirements of this paragraph prior to requesting, in writing, any certificate from any other source.

- c. If a selection is made from any Group 1 promotion certificate, the selecting official will sign and return the certificate to the HRO.
- d. Insure employees hired in a trainee status will be informed of the approximate duration of the training necessary to become fully qualified.
- e. If for some administrative reason the selection process cannot be completed the selection package will be returned to the HRO. (See Section 17-18 (e) below)

## **ARTICLE 18 - DISCIPLINE**

### **18-1 GENERAL**

a. This article applies to matters of conduct only. Actions that relate to job performance will be accomplished in accordance with the agency performance appraisal system and contract modifications (Article 12). It is acknowledged that in some cases, disciplinary actions are necessary. The parties agree that discipline and adverse actions will be based on just cause and be consistently applied equitably and promote the efficiency of the federal service.

b. The parties recognize that there are two types of technician disciplinary actions that may be appropriate; i.e., informal disciplinary action and formal disciplinary action. Disciplinary action will be for the purpose of correcting offending technicians and problem situations and maintaining discipline and morale among other technicians. A supervisor will consider a closer degree of individual supervision and/or warnings to effect corrective action prior to undertaking a formal disciplinary action.

c. In order to be effective, constructive discipline must be timely. Disciplinary action should be initiated within 5 workdays after the offense becomes known to the individual's supervisor. Appropriate justification will be provided when this requirement cannot be adhered to.

#### **18-2 INFORMAL ACTION**

a. This type of action will consist of a counseling session with the technician by his supervisor. The technician will be advised of the specific infraction or breach of conduct and exactly when it occurred. The technician will have a labor organization representative present if desired, and supervisors will advise the technicians of this right prior to the counseling session.

b. Counseling sessions will be recorded on NGB Form 904-1, in pencil, and may not exceed sixty (60) days unless recognized as relevant to a continuing or recurring problem.

c. To protect the confidentiality of the records (NGB Form 904-1) and to preserve the privacy of the individual, records will be maintained at the lowest level of supervision excluded from the bargaining unit and access will be limited to management/technicians concerned and individuals to whom the technician has given written permission.

d. An appeal of a counseling session may be made through the negotiated grievance procedure. A successful appeal could cause any record of the counseling to be deleted.

#### **18-3 FORMAL DISCIPLINARY ACTION**

a. Formal disciplinary action consists of oral admonishments, written reprimands, suspensions, reductions in grade, and removals. Even though these actions constitute formal discipline, only suspension, reductions in grade and removal actions are considered adverse actions since they affect the pay of the technician.

b. Before disciplining a technician, the supervisor will gather all available facts and discuss them with the technician, informing the technician of the reason for the investigation. After considering the technician's response, the supervisor will then advise the technician if the discussion resolved the matter. If an oral admonishment or letter of reprimand is decided upon the following procedure will apply.

##### **(1) An oral admonishment is:**

**(A)** A disciplinary action that notifies a technician to desist from a certain course of action. The supervisor will describe the offense in sufficient detail to enable the technician to understand why the admonishment is necessary. The technician may have a Labor Organization representative if so desired. The supervisor will advise the technician of this right prior to the questioning and presentation of the admonishment.

**(B)** Annotated in pencil (date and subject) on the NGB Form 904-1 and may not exceed six (6) months unless recognized as relevant to a continuing or recurring problem.

**NOTE:** In order to protect the confidentiality of the records (NGB Form 904-1), and to preserve the privacy of the individual, records will be maintained at the lowest level of supervision excluded from the bargaining unit and access will be limited to management/technicians concerned and individuals to whom the technician has given written permission.

##### **(2) Written reprimand will:**

**(A)** Normally be signed by the appropriate supervisor and coordinated with HRO for contract and regulatory compliance.

(B) Describe the offense in sufficient detail to enable the technician to understand why the reprimand is necessary.

(C) Inform the technician that the letter will be filed as a temporary document in the Official Personnel Folder (OPF) until a specific date. Retention period may not exceed twelve (12) months unless recognized as relevant to a continuing or recurring problem.

**NOTE:** The technician may have a Labor Organization representative if so desired. The supervisor will advise the technician of this right prior to the questioning and presentation of the letter of reprimand.

(3) An appeal of an oral admonishment or a letter of reprimand may be made through the negotiated grievance procedure. A successful appeal could cause the action to be withdrawn and any record of the action to be deleted.

(4) If adverse action is decided upon the procedure in Section 18-4 applies.

#### **18-4 ADVERSE ACTIONS**

a. Adverse Action is an administrative action that results in removal, suspension, or reduction in grade or compensation of any technician.

(1) There must be a reason for taking adverse action; that reason is commonly referred to as a "cause" and is defined as "an offense against the employer/employee relationship." What constitutes a "cause" is a decision that must be made on the merits of each situation.

(2) Having a "cause" is not sufficient to warrant an adverse action. Management must also conclude that taking an adverse action will promote the efficiency of the service. This is done by establishing a relationship between the "cause" and its impact or effect upon the efficiency of the service (i.e., the technician's ability to perform his duties; the agency's ability to fulfill its mission, etc.)

b. Adverse actions will not be initiated by any supervisor without consulting with the appropriate Reviewing Official and obtain approval of the HRO before issuing proposed adverse action and original decisions. The following, as required by agency regulation TPR 752 will be the sequence of events for an adverse action:

(1) Technicians will be given at least a twenty (20) calendar day notice of proposed adverse action, signed by the individual proposing the action. The technician or the representative will be given the opportunity to reply to the charges, in writing and/or in person, to the reviewing official.

(A) The Technicians will be given twenty (20) calendar days to reply to the proposed action. Time extensions will be provided upon written justification.

(B) All evidence and materials relied upon to support the action will be provided to the Technicians and their union representative.

(C) A sufficient amount of excused absence will be provided to the Technician and their union representative to review all evidence and materials and prepare the reply to the proposed action.

(2) The technician will be given a Notice of Original Decision, signed by the Reviewing Official that will state the specific action being taken. Upon receipt of the decision the technician has twenty (20) calendar days to file for an appellant review by the Adjutant General, an Administrative Hearing conducted by a National Guard hearing examiner or a non-binding arbitration hearing conducted by an FMCS arbitrator.

(A) Technicians requesting an appeal shall state their dissatisfaction and include with the appeal any proof or other supportive documents. The appeal letter will also include whether or not the individual requests representation.

(B) If the technician requests a hearing, the HRO, will submit a written request to NGB for a list of examiners. In-turn, the NGB will provide a list of hearing examiners from which the Adjutant General may make a selection. A letter will be sent advising the appellant of the name of the hearing examiner. The hearing will be before the selected hearing examiner who will provide a recommendation to The Adjutant General. The Adjutant General will consider the recommendation in making the final decision.

(C) All expenses incurred for the use of either the hearing examiner or arbitrator will be shared equally.

(D) If non-binding arbitration is agreed to the provisions of Article 19-13, 14, and 15 will be used.

(E) An Adverse Action will be carried out if there is no appeal to the action or the appeal procedure has been exhausted and the action upheld in accordance with 32 USC 709 (f) (4).

### **18-5 REPRESENTATION**

a. Prior to discussions that may lead to disciplinary or adverse actions; the supervisor or person/persons performing an investigation role for the agency will notify the technician of the right to labor organization representation. If the employee accepts representation, no further questioning will take place until the representative is present. If the technician chooses not to have representation that waiver must be in writing. The labor organization will be served a copy of this waiver.

b. An investigative interview will, if representation is requested, be delayed for a reasonable amount of time until the employee(s) representative can be present.

c. A supervisor who is conducting an investigative interview will notify the technician that the interview may lead to disciplinary action and that the employee has the right to remain silent and may refuse to give a written statement until a representative is present, or representation has been declined in accordance with Section 18-5a above.

### **18-6 RECORDS**

a. In any disciplinary action, an employee will, upon written request, be furnished a copy of all written documents in the employer's files that contain evidence used by the employer to support any disciplinary or adverse action. Any such records or diaries shall not be used as a basis to support any disciplinary or adverse action against an employee unless the employee has been shown and provided a copy of such record, note or diary within a reasonable period of time after the date of the incident being recorded. Informal notes made by supervisors that allege infractions, tardiness, and the like, cannot be used in proceedings against employees, unless timely disclosed beforehand.

b. No written entry will be made in an employee's files concerning disciplinary matters without the knowledge of the employee. The employee will initial the entry. The employee's initials acknowledge only that the employee knows that an entry was made, but for no circumstance will initialing the entry be considered as an agreement with the entry or an admission of guilt.

If either party fails to participate in the selection process, the arbitration action will proceed with the requesting party accomplishing the selection.

The Adjutant General is responsible for implementing a reduction in force (RIF).

### **23-2 PROCEDURES**

Provisions of TPR 300-351, Annex C of the California Technician Personnel Manual and this article will govern procedures relating to reduction in force. Article provisions will prevail in the event of conflict with agency directives. The Employer in recognizing the responsibility of the Labor Organization to represent the bargaining unit agrees to negotiate appropriate arrangements for those bargaining unit employees adversely affected by the implementation of this article.

### **23-3 DEFINITIONS**

a. Reduction-in-Force (RIF): RIF occurs when a technician is released from a competitive level by separation, change to lower grade, furlough for more than 30 days, or reassignment involving displacement of another technician, when lack of work or funds, reorganization, reclassification due to erosion of duties, or the need to make a place for a person exercising reemployment or restoration rights requires the agency to release the technician.

b. Competitive Areas: The boundary within which employees compete for retention and receive placement offers. A competitive area may be organizations and/or geographical location. It may be restricted to the commuting area or one organization or expanded to cover the entire state. The area may also include both the ARNG and ANG or be restricted to one service. At the time a RIF notification is received, impact bargaining will commence to clarify the portion of the bargaining unit affected.

c. Competitive Levels:

(1) A competitive level consists of Excepted or Competitive positions, independent of one another, within a competitive area, which are in the same grade, and are so alike in qualification requirements, duties, and responsibilities that the incumbents can be moved from one position to another without undue interruption to the work program.

(2) Supervisory positions will not be placed in the same competitive level as bargaining unit employees.

(3) Non-bargaining unit technicians will not compete with bargaining unit technicians for bargaining unit positions.

d. Tenure Groups: Following the release of temporary employees, technicians are divided into three (3) Tenure Groups:

Group I - Technicians under permanent appointments that are not serving on probation or trial periods.

Group II - Technicians serving on probation or trial periods.

Group III - Technicians who have been given indefinite appointments in the excepted service.

e. Retention Registers: A record that lists technicians in descending order, within their competitive levels, starting with the technician with the highest score first. Retention standing within each tenure group is established by using the following criteria:

(1) Each complete year of creditable service will be given one (1) point for each year. Creditable service is based upon service computation date.

(2) If a tie exists, the California Air National Guard Technician service date will be used as a tiebreaker.

(3) The retention register will be established in descending order.

(4) Once authority for a reduction in force has been received, receipt of a new performance appraisal will not affect the technicians standing in the current reduction in force.

### **23-4 HRO RESPONSIBILITIES**

a. Upon notification from higher authority, meet with the labor organization to explain the need for a reduction in force, upon request provides all documents and correspondence received, relative to the RIF action. The parties will then negotiate the appropriate procedures to be used.

b. After impact bargaining with the labor organization, notification of the RIF will be in the form of a posted written general notice as far in advance as possible. The general notice will contain, if available the following information;

(3) The date personnel actions are frozen, i.e. reassignments, promotions, hiring, etc.

(6) Develop an aggressive placement program to include contact with other states, local federal activities, local government and private employers.

c. A specific written notice will be given to each affected technician to be RIF'd at least 60 days prior to the effective date of the action. This notice will state specific actions and known alternatives to be offered to the individual. The following information, as applicable, will be included when preparing a specific notice of reduction in force.

(1) Reason for the reduction.

(2) Specific action to take place (e.g., separation, furlough offer of change to lower grade, etc.).

(3) Title, grade, and salary of current position.

(4) Competitive area and competitive level designated.

(5) Service computation date, technician service date, and retention rating.

(6) The position title, grade, salary, and location of any position offer or the reason why no offer can be made. Also, include the military grade requirements.

(7) Reasons for any exceptions to retention order.

(8) Effective date of proposed RIF (other than 15 December through 3 January).

(9) Where the technician may review retention registers and RIF regulations and the HRO personnel specialist to contact for information.

(10) Appeal rights, how to file them and any time limits imposed.

(11) A clear explanation of the technicians grade and/or pay retention entitlement.

b. Placement assistance will include contacts with other states, local federal activities, local government agencies and private employers.

c. Reemployment Priority List. A reemployment priority list must be maintained for tenure groups I and II technicians separated in a RIF. Upon receipt of a specific notice of separation, technicians will be placed on this list, but only if they have not declined an offer that preserves a non-temporary, full-time position in their present grade, step, or equivalent salary. Technicians will remain on this list for two (2) years, unless they decline in writing, accept a full-time position, or decline the offer of a full-time position in the Federal Government.

### **23-6 APPEALS**

a. A competing technician may appeal to the Adjutant General when he/she has received a specific notice of reduction in force, and he/she believes that the Employer incorrectly applied the provisions of the references cited in section 23-2 of this article.

(1) An appeal may be submitted upon receipt of a specific notice, but no later than thirty (30) calendar days before the effective date of the action.

(2) The appeal must be in writing and must include the following information: Name, SSAN, position title, series and grade, position description control number (PDCN), and the place of employment.

(3) The appeal must clearly state the reason the technician believes the action affecting him/her is inappropriate, and must show that the Employer failed to comply with the RIF procedures outlined in this Article (e.g., insufficient notice, improper tenure grouping, and errors in service computation date).

b. Extension of Time Limit. The Adjutant General may extend the appeal time limit when the technician indicates that he/she was not notified of a time limit and otherwise was not aware of it, or that circumstances beyond his/her control prevented him/her from appealing within the time limit.

c. Decision on Appeal. The Adjutant General will issue a written decision and, where applicable, direct the HRO to take any necessary corrective action. A copy of the decision stating what corrective action will be taken is then forwarded to the technician. The decision of the Adjutant General is final and there is no further right or appeal. A copy of the decision issued by the Adjutant General will be furnished to all interested parties.

d. Corrective Action. The decision of the Adjutant General may require the HRO to take corrective action as follows:

(1) Correct the retention register.

(2) Correct the technician's specific notice.

(3) Restore the technician to his/her former grade/pay level or one of like seniority, status, and pay when the technician was reduced or separated improperly.

(4) Reimburse the technician for all pay lost as a result of any improper RIF action.

e. When a technician's appeal uncovers an error that does not change the outcome of the RIF, the Adjutant General will correct the error without requiring restoration or recall of the technician or technicians involved.
